Mobile Forensics, Inc.

The LEADING non vendor training company in the United States

WHY train with anyone else?

Welcome to the first phase of Mobile Forensics Inc.’s cellular data extraction workshops.

Overview:

An introduction to the legal issues, service providers and current methodologies. Hands on instruction on data extraction from GSM, iDEN and CDMA handsets, using a multitude of software to include Paraben’s Device Seizure, Susteen’s Secure View, MobilEdit, Oxygen, Bitpim and many more! Students will learn the basics of the cellular network and will have a foundation in the history of cellular technology.

Class Schedule:

2 Day course which will cover the following material:

- Handsets and SIM cards
- Device Seizure/MobilEdit/Secure View/Oxygen/Bitpim
- Unlocking CDMA and GSM handsets
- Faraday Technology
- Trouble Shooting
- Call Detail Records
- Written examination

Pricing:

- \$450 includes
 - MFI Laptop bag
 - MFI T-Shirt
 - MFI Thumbdrive

****Students attending the conference can enroll for the training at a \$100 discount, paying ONLY \$350 for 2 days of training with the LEADING mobile forensics training company in the US.

***ALL students no matter the pricing schedule get to use FULL versions of ALL software/hardware in class*
